### What is the competition?

We are launching a brand new competition for young people in years 10 – 13 to submit an innovative, creative project idea to tackle plastic pollution in your local area.

The best part? Your project won't just be an idea, the winner will receive 1-1 mentoring and a £400 budget to help put your project into action!

### Who are we?

The Wildlife Trust for Birmingham and the Black Country are a charity working for nature's recovery, leading hundreds of partners, community groups and students to protect, create and improve our vibrant wildlife-rich green spaces.

### What's the problem?

We know that human activities have a massive knock-on effect on nature and wildlife with a significant amount of the plastic in the ocean reported to come from our rivers.

The UK is leaving the EU in 2019 which could leave our Environment at risk. This competition is your opportunity to support our campaign for a New Environment Act by acting demonstrating your support on an environmental issue.

### Why take part?

- Develop skills in creativity, problem solving, budget setting and project management
- Build self-confidence through the presentation process
- An experience similar to job applications
- Certificate of participation for college / UCAS applications
- Make a difference to your local environment and community
- Learn about the impacts of plastic pollution on local wildlife

### Timeline

- Deadline to apply is Monday 5th November 2018
- Finalists will be notified by Monday 17th December 2018
- The final is Wednesday 5th February 2019

All applicants will receive a certificate of participation and applications will be scrutinised by a select team at the Wildlife Trust. Finalists will be invited to pitch their project plan in a detailed 10-minute pitch to a panel of specialist judges.

The winner will be awarded with a trophy and the chance to work with our Community Engagement Officer to bring your project to life with a £400 budget.

### The Competition

You have a £400 budget to set up a project to tackle plastic pollution in your local area. Your project could identify ways to reduce plastic use, more sustainable uses of plastic, community campaigning, species-focused awareness or something else entirely innovative! Your idea can be as broad as your imagination within the £400 budget.

In no more than 500 words or a 3-minute video, we want you to provide an outline of your project plan. Your application can also include optional images or drawings.

When writing your application consider:

- Why you are taking part
- How this issue affects your local area
- How your project idea would make a difference to your local area
- How you plan to manage your budget

To help narrow down the submissions the judges will be looking for applications that meet the following key criteria:

#### Awareness of the impact of plastic pollution

How is plastic pollution affecting the world locally and globally? In 2016 over 320 million tons of plastic was produced globally, which is set to double by 2034, we want to know how it's affecting you and your local area.

#### Innovation and creativity

Why is your idea innovative? The aim of this competition is to uncover new ideas for how to improve the plastic waste crisis, so be as creative as you can and be sure to tell us why your idea is a good one.

#### Community and environmental Impact

What measurable benefit will the project have on your local community and the local environment? This could include education for people, money saved by your school / college or local businesses and species or habitats protected.

#### Feasibility and sustainability

How will your idea be managed, delivered and sustained? Judges want to see evidence of the long-term project plans for example; transferring the project to other areas and sustainability beyond the initial funding.

### How to apply

Submit your application form along with your video or wording by Monday 5th November 2018 to: emma.s@bbcwildlife.org.uk

Centre of the Earth  
42 Norman Street  
Birmingham  
B18 7EP
